Medicare is a type of health insurance funded by the federal government. You won't automatically get enrolled in Part D like you will with Part A and Part B. After that, the applicant must attend a biometrics appointment and interview. Other questions ask about the person's ability to communicate in English and knowledge of the U.S. government. If you've already retired or are receiving Social Security benefits at age 65, you'll automatically be enrolled in Part A and Part B when you turn 65. Resource Links: Enrollment Process What you'll need to do to get enrolled in Medicare depends on when and why you're receiving it. These plans also often offer extra benefits and lower out-of-pocket costs. You'll be eligible to receive Part D, but you'll need to choose a plan yourself. It poses a series of questions about the age, residency status and military service of the individual who wants to apply for naturalization. This is different from the date that you started receiving SSDI benefit payments, which may be five or more months after your onset date. Original Medicare has four separate parts. Sometimes called "hospital insurance," Medicare Part A covers inpatient care in hospitals and skilled nursing facilities as well as hospice and home health care. Citizens also enjoy priority processing when they want to bring their relatives to the U.S. as residents. Form N-400 is the form used for applicants for naturalization. Naturalization vs. The first step in applying for naturalization is completing and submitting Form N-400. This impressive figure demonstrates the importance of that government-funded health insurance for people age 65 or with certain health conditions. If you don't enroll during this time, you can enroll during Medicare's General Enrollment Period, which lasts from January 1 to March 31 each year — but you may pay a penalty for waiting. The amounts of each change each year, and the different parts also involve different costs. If you opt for original Medicare, you can get supplemental coverage to help with your deductibles and other out-of-pocket expenses. Part A does involve deductibles and coinsurance, however. Part B has standard deductibles and premiums that you must pay every year and month, respectively. If you're eligible for Social Security Disability Insurance (SSDI) and are under age 64, you become eligible to receive Medicare benefits after a 24-month waiting period that starts on the date you became disabled (your onset date). If you have ESRD or ALS, you may be eligible to begin receiving Medicare immediately, without the 24-month waiting period. Medicare Parts Explained Medicare has four parts, with each one covering different types of medical services and offering different benefits. Medicare Part B, which is sometimes called "medical insurance," covers the services you receive from doctors and health care providers, including outpatient care, home health care, durable medical equipment and preventive services like wellness visits. Once you meet your annual deductible, you'll typically still need to pay 20% of the Medicare-approved cost for many physician services, therapies and medical equipment.
